

the range of coolers

**WAVE**

OFFICE - HOSPITALITY

State of the art for performance,  
cost, features and great Italian design.

**R290**  
**NATURAL GAS**  
zero impact  
on global warming  
**R600a**  
First on the market

**blupura**

Cool, yes we are.

# WAVE

Elegance, top quality, versatile, efficient, compact. What more could you ask from the Wave cooler? ...the natural refrigerant gas R290, of course!

- Supply options: cold still water, room temperature water, sparkling water and hot water at 95°C (Hot version)
- Ice-bank refrigeration.
- Professional steel carbonator.
- Safety inlet valve.
- Automatic alarm system signals no water, no CO<sub>2</sub>.
- Mechanical filter at inlet to protect hydraulic components.
- Lockable front access.
- Easy access for inspection from above.

Integrated "touch sensitive" commands are under glass for maximum hygiene.

## IT Inox Touch

Made entirely of stainless steel.

Exactly the same performance as the WAVE but in a more economic version thanks to the substitution of the touch screen commands for high quality stainless steel buttons.

WAVE - Technical Data	Dimensions WxDxH (mm)	Net weight (kg)	fizz	natural GAS	touch screen	portion control	energy saving	Cooling technology

\*still and sparkling water only

## Natural refrigerant gases

With totally natural refrigerants (HC) such as R290 or R600a. An ecological choice, with the added advantage of a more silent compressor and ensuring a longer life to the entire refrigerant apparatus.

### Cabinet

- Built entirely in stainless steel.
- With optional cup dispenser.
  - wider base so as to increase stability.
  - Locks using same key as Wave cooler.
  - Inner bracket for mounting filters and the CO<sub>2</sub> cylinder.

only for WAVE 60 model

### TALL

- On request the supply point of WAVE can be made higher:
- Wave for bottles and carafes up to 27 cm
  - Wave Tall for bottles and carafes up to 31 cm

### The new **HOT** version\*

8  
lt/h

**8 litres of hot water, both in the undercounter and countertop versions.**

The first watercooler for office use which also provides hot water at the perfect temperature (95 ° C) for a good cup of tea.

\*only for WAVE IT 60 model

## Accessories

### UV lamp at outlet (4w)

Protects the dispensing area from bacterial growth, avoiding the risk of retro-contamination.

### HC 60

Innovative filter "Hygienic Concept":

- UF 0,15 micron
- 8.300 lt. capacity.
- UV OUT.

### UV Filtration

In line UV light (12 W).

### Active carbon filters

Purifies the water making it crystal clear, odorless and tasteless. It filters out all impurities up to 0.5 microns, removes all odors and unwanted tastes such as chlorine, asbestos fibers and some microorganisms such as Cryptosporidium.

### CO<sub>2</sub> Cylinder

Rechargeable 0,640 Kg.

### Drip tray

Drip tray with drain.

### Nano Silver pipe

Stainless steel tube AISI 316L with an innovative nanotechnology-based SILVER ion treatment on the surface. Silver is naturally bacterio-static and so reduces bacterial growth in the pipe.

The surface treated with these nano particles is much more compact and smooth: this prevents the formation of deposits, biofilm or bacterial colonies and because the water flows better through the tube, also reduces dripping at the end of dispensing.

### Pressure reducers

CO<sub>2</sub> pressure reducer for refillable or single-use cylinder, water block, water pressure reducer.

### Sanitizing products

Sanitizing and clearing products for the plants.

The quality of our water-coolers has been certified and awarded by the most important international certification bodies in the sector. A further guarantee for those who buy them and those who use them, and a source of pride for us as we reach for maximum results by focusing on **avant-garde technology, design and ecology.**
